## PROFESSIONAL EXPERIENCE

**Team Lead**
**NetOne Soluciones Web para Pymes**
August 2023 - Current

I lead a team that is developing a CRM and other features for an investment fund management system, as well as a complete rewrite of the web app's UI using Angular and development of a mobile app using Ionic.
I'm in charge of communicating with the client, defining tasks, organizing sprints, doing code reviews and automating deployments as well as developing many of the requested features.

**Junior Web Developer**
**NetOne Soluciones Web para Pymes**
February 2022 - August 2023

Maintenance and development of new features for an ERP system using Java, Spring, Hibernate, JavaScript and TypeScript.
Testing with JUnit and Mockito.
Maintenance of other company projects using C# and .NET Framework.
Development of microservices using Node.js, Express and MongoDB.

## EDUCATION

**Technical Degree in Mobile Development**
Universidad Nacional de La Matanza, March 2022 - Current
Coursework includes development and management of mobile and web applications, using native and multi-platform technologies, as well as modern development architectures and the completion of several projects that cover both front-end and back-end.

**First Certificate in English**
Instituto Lord Byron - Cambridge University, March 2008 - December 2018
Learned the English language, starting at 6 years of age.
Successfully earned the First Certificate in English (score: 181/190), demonstrating C1 proficiency.

**Technical Degree in Programming**
Escuela de Educación Secundaria Técnica N°6, March 2014 - December 2020
Learned the fundamentals of programming and algorithms, culminating with the development of several web projects written in PHP and using MySQL.
